

STUDENT HOUSING

CIS-Endicott International in Madrid provides assistance and guidance in obtaining housing for students who come to study with us.

The Housing Coordinator keeps in touch with the residence and families to ensure the quality of this living situation.

At the end of each semester, students evaluate their stay at the residence or the host family.

➤ HOST FAMILIES

This type of housing includes full board (breakfast, lunch and dinner), full laundry service and room cleanup.

There are no curfews; students have their own key to the apartment allowing for a large degree of independence. Families do have rules of their own that do not infringe on the students' life while in Madrid.

➤ RESIDENCE

This type of housing consists of a **single room, fully furnished, with its own private bathroom**. The residence has several common areas for students, including lounge areas, a gym, study rooms, swimming pool and sun decks. The residence is co-ed with a very international atmosphere.

Half board (breakfast and lunch or dinner) is offered. The students have access to private cooking areas where they can store food and cook whenever they want.
